

Sharing your screen

Overview

While in a meeting, you can share the following content:

Note:

Prerequisites

Sharing your screen or content

Share screen menu

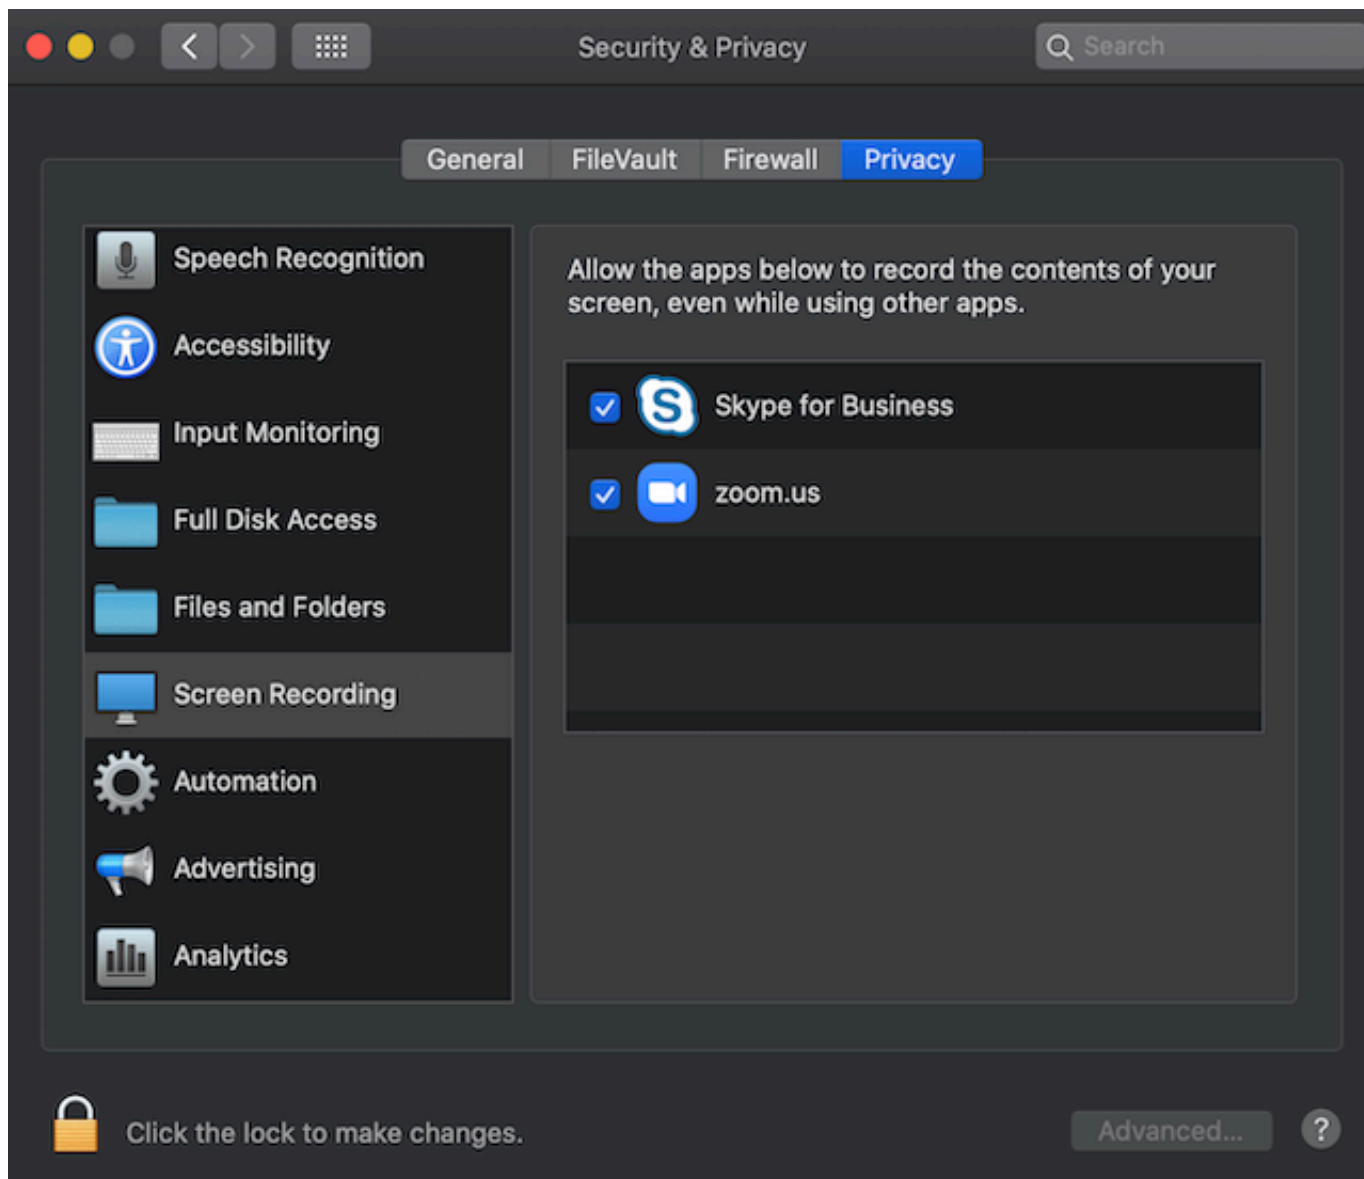

When you start sharing your screen, the meeting controls will move into a menu that you can drag around your screen.

Using dual monitors

If you are using a dual monitor set-up, you can turn on the feature to see the screen sharing on one monitor and participants on the second.

Note: On Mac OS 10.15 Catalina, you need to allow Zoom access to screen recording to share your screen. You can do this in your **System Preferences > Security & Privacy > Privacy > Screen Recording**. Check the option for **zoom.us**.

Sharing your screen or content

Screen share menu

When you start sharing your screen, the meeting controls will move into a menu that you can drag around your screen.

Using dual monitors

If you are using a dual monitor set-up, you can turn on the feature to see the screen sharing on one monitor and participants on the second.

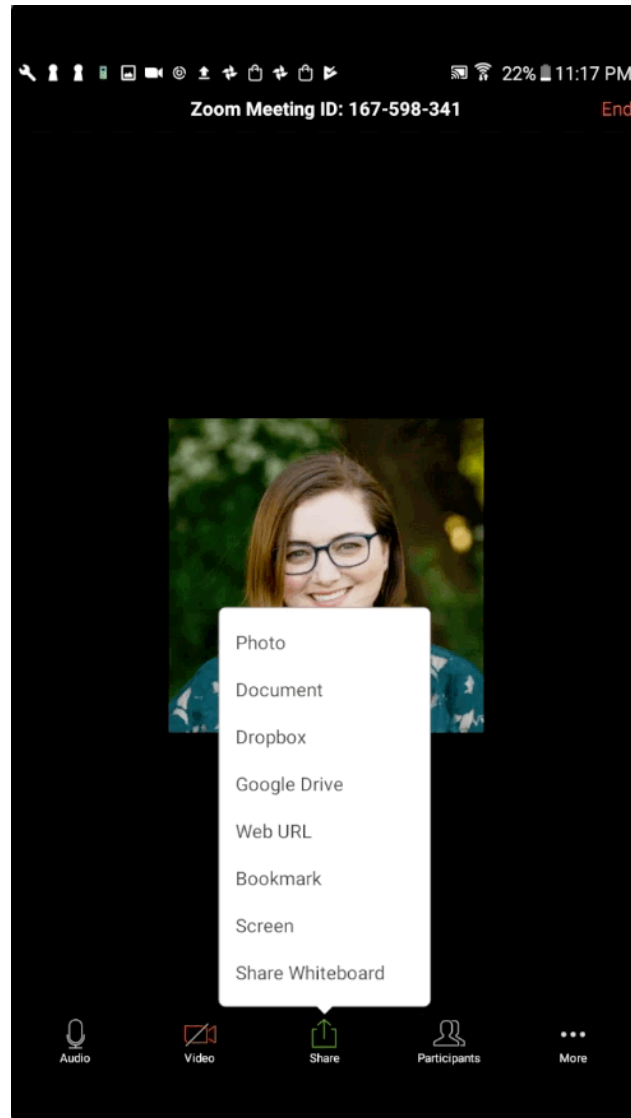

On Android, you can share content or your screen.

Note:

Sharing content

You can share your entire screen including any application on your Android device. Sharing your entire requires Android 5.0 or higher.

1. Tap **Share** in the meeting controls.
2. Tap **Screen**.
3. Tap **Start Now**.

4. The screen share will start and Zoom will continue to run in the background. You can now chose the app that you would like to share.

5. At the bottom of your screen, tap **Annotate** to open the [annotation tools](#) or tap **Stop Share** to stop sharing and go back to meeting controls.

On iOS, you can share:

- Screen - requires iOS 11 or later and Zoom version 4.1.18611.1228 or higher. [Learn how to share your screen.](#)
- Photos
- iCloud Drive
- Box
- Dropbox
- Google Drive

- Microsoft OneDrive for Business
- Microsoft OneDrive
- Website URLs
- Bookmark
- Whiteboard - iPad only

Note that some of these options can be disabled in your Account settings, under [Integrations](#).

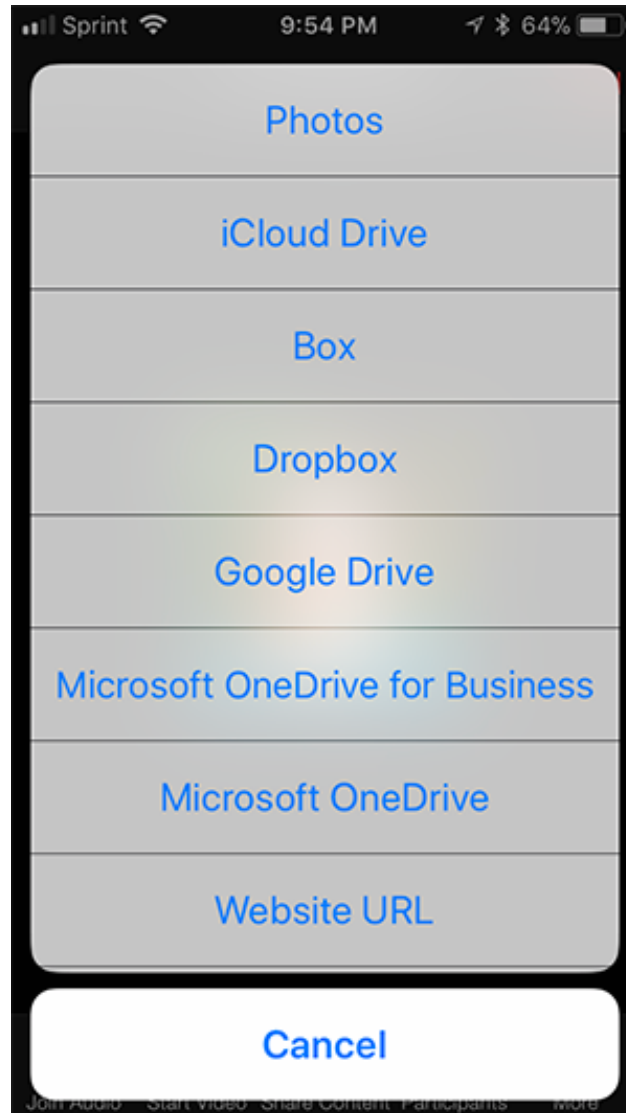

If you need to share your entire screen on an older version of Zoom, see [sharing iOS Applications](#).

Sharing content

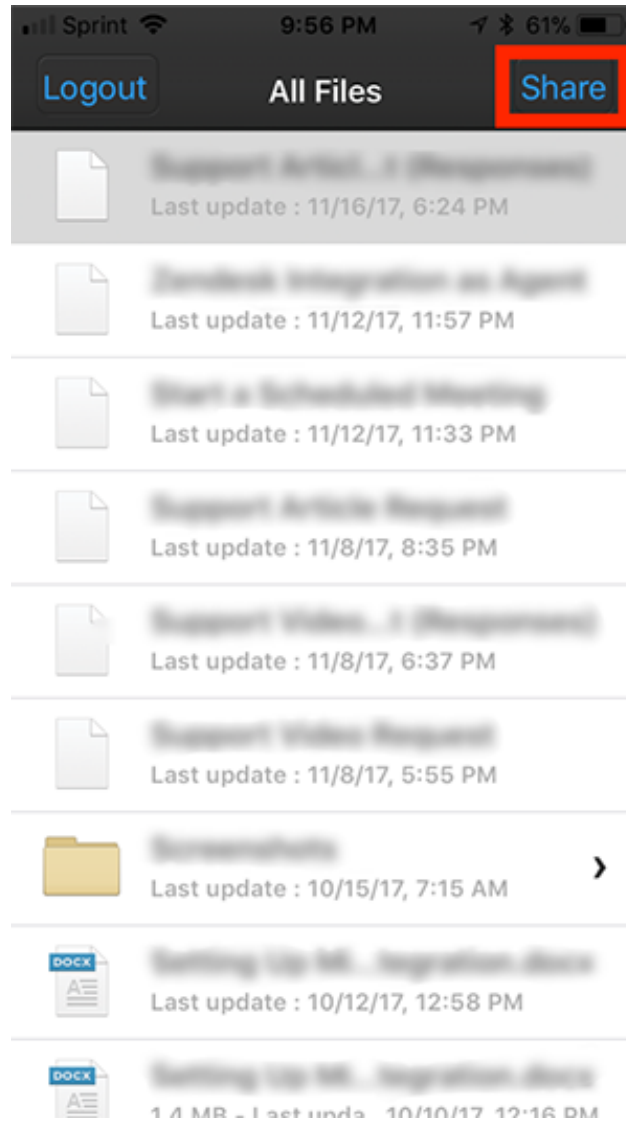

1. Tap **Share Content** in the meeting controls.

2. Tap the type of content that you want to share.

3. For example, if you select Google Drive, this will bring up a series of documents that can be shared. Select the document you want to share and then **Share** in the top right corner.

4. The content is now shared into the meeting.

Note: You cannot annotate when sharing your entire screen into the meeting via iOS device. If you need to annotate when sharing an entire iOS screen, see [sharing iOS Applications](#).
